

INITIAL PLANTING VIDEO

TASK DESCRIPTION:

We utilize the video sharing platform Flip (formerly known as Flipgrid) for asynchronous video discussions and community building. This platform is limited to the PTMC Spring 2023 Season Participants and provides an opportunity for teams to hear from others in the design and progress of their experiments. Science is not conducted in a vacuum!

This initial video is an introduction of your team and overview of your experimental design and beginning of your experiment. The video can be created directly in Flip or filmed ahead and uploaded to the platform later.

SUBMISSION NAMING CONVENTIONS FOR VIDEO SUBMISSION

Caption should be labeled with the following information:

- Team #
- Team Name
- Plant the Moon or Plant Mars
- Location of team (state/country, etc)
- Division (Elementary, Middle School, High School, Undergrad/Professional)

VIDEO GUIDELINES:

- 2-5 minutes long
- Video should include a representation of the whole team
- Please watch other teams' videos and comment/engage with them

PTMC INITIAL PLANTING VIDEO PROMPT:

- Introduce your team (team name!) + team members
- Location and/or affiliation (school, company, etc.)
- Planting the Moon or Mars? Why?
- What is your project hypothesis/aim?
- What crops/seeds are you planting?
- What are your dependent variables? Independent variables? Control variables?
- Showcase your grow setup and space.
- Wrap by saying "We're planting the Moon!" or "We're planting Mars!"

SUBMISSION:

- **Step 1:** Upload video in Flip community: <https://flip.com/baa74940> (Password: PTMC_initial)
- **Step 2:** Confirm submission in the Round 3: Initial Planting Video on the ICS Team Portal & provide Flip video link on ICS Portal
- **Due: Friday, February 24, 2023 at 11:59PM Pacific**
